

LEARN HOW WORKS NGO & COMMUNITY DEVELOPMENT

The 1st "Voluntraining" grade in Europe !

PROGRAM 2023-2024

GOBIERNO
DE ESPAÑA

MINISTERIO
DE DERECHOS SOCIALES
Y AGENDA 2030

About us...

EnriquezArte is the only NGO in Spain that offers training centered around the creation and management of solidar communities. We welcome **voluntrainees** from all over the world who wish to experience a community life in Barcelona.

The objective is the integral personal development, based on creative methodology with greater participation and involvement. The challenge for **voluntrainees** is their own commitment to work on individual and personal development through community goals.

From the experience of years developing solidarity projects, we create a dynamic of inclusive and social participation.

Goal of the Program

The objective is personal growth accompanied by:

- Dynamic and original methodologies
- Study and development of introspection processes to create new training opportunities in the technical-vocational, artistic-cultural and recreational
- Creation of solidarity networks of volunteers as new entrepreneurial networks.

How do we achieve these objectives?

- Project based on:
 - General content = community coherence, ethics and sustainability
 - Personal content = expectations, projects and personal concerns
- Space for personal development based on values, attitudes and community methods
- Co-construction of a community project that contributes to conscious, participatory and meaningful learning for the entire community
- Solidarity and cooperation" skills as axes of personal development
- Routines of mental and physical balance

Training Plan

The EnriquezArte training requires a circulation in the community.
Each person dedicates 35 hours a week to community life, distributed as follows:

- 7 hours in lecture classes (work circles).
- 16 hours in thematic guided practices.
- 7 hours in community building (community living tasks + meetings).
- 5 hours of coexistence (caring and organizing of community spaces).

The courses are divided into 7 main categories:

- Community economic management
- Human talent management
- Organization of community events
- Individual and collective ecology
- Digital community management
- Personal and collective coaching

Classes usually follow this format organized in 3 third :

- 1/3 of classes and trainings
- 1/3 of practice and projects on field
- 1/3 of personal growth & leadership

Communication & NGO Marketing

12 Week

Engineering & Logistics

Areas of Work

To learn to live in community and develop personal skills, we use the 'learning by doing' method. method (learning by doing): godfathers and godmothers will support you in your personalized personal development, recommending you to focus on one of the circles proposed below. Depending on your skills and interests, you can consider changing circles each month to experience several of the five categories proposed: human resources (HR), administration & accounting, food & sustainability, communication & marketing, and maintenance & logistics.

<p>Management</p> <ul style="list-style-type: none"> ● Fundraising: Respond to the call for tenders, seek how to benefit from the municipalities in general. ● Accounting: Update cash flow. ● Commercial strategy: Imagine the financial development of the center ● General coordination: Coordinate the missions of the volunteers and the life of the center between them. ● Follow-up of the volunteers: Ensure the correct integration of each.
<p>Activities</p> <ul style="list-style-type: none"> ● Conception and internal coordination of activities with economic viability: Ensure that the planning of activities is functional, ensure communication with the promoters, resources available to the partners. ● Community work: Participate in meetings with other entities, make the association known to politicians to involve institutions and authorities.
<p>Communication-Marketing</p> <ul style="list-style-type: none"> ● Events: Imagine and create events to animate the center and bring more people. ● Community management: Animate the life of the center on social networks, publish information about the workshops, answer questions on messenger or whatsapp. ● Communication: Ensure good communication between volunteers and promote the activities of the center.
<p>Human Resources</p> <ul style="list-style-type: none"> ● Social and Labor Insertion: Integrate the individualized project of each volunteer within the activities of the NGO. ● Recruitment of volunteers: Post job offers on volunteer sites, respond to people who want to volunteer. ● Coordination of coexistence: Make sure that everyone feels integrated, in the life of the center, of the city and among the volunteers. Make the planning of coexistence, make sure that all the volunteers participate.
<p>Maintenance</p> <ul style="list-style-type: none"> ● Reforms and decoration: Maintain the center and carry out reforms to improve it (mortar, paint, ...). ● Hygiene: Clean the common spaces and the rooms where the workshops take place. ● Garden: Take care of the plants in the garden, make sure they feel good! ● Sort: Sort all the things in the center (donations, painting material, wood, tools, food...) in a smart way so that they are easy to find.
<p>Food and sustainability</p> <ul style="list-style-type: none"> ● Food Bank: From collection to distribution, all logistics, administration and food safety regulations. ● Sustainable, healthy and supportive restoration: Managing a restaurant from A-Z ● Ecological awareness: To the day in each act to be in a continuous improvement.

Invest in your future!

The rationale behind this program is that learning about community life should be a must from an early age. The world has many problems because we do not know how to live together. Many of the conflicts in the world, whether they be conflicts between families, friends, couples, countries, come from a lack of teaching community life.

This formation is not reserved for those who wish to live in community: we all live in community by the way we are linked in society. Sharing on good terms generates well-being: community life teaches you to appreciate the positive and trains you to avoid misunderstandings and social unpleasantness.

EnriquezArte offers you a community life with personalized and multilingual pedagogy. The fee includes all training, accommodation in dormitories for 2 or 4 students, and meals in our restaurant: elpatiobarcelona.org.

Coliving is living...

Y para que conste, se expide este certificado en Madrid, 17 de abril de 2023

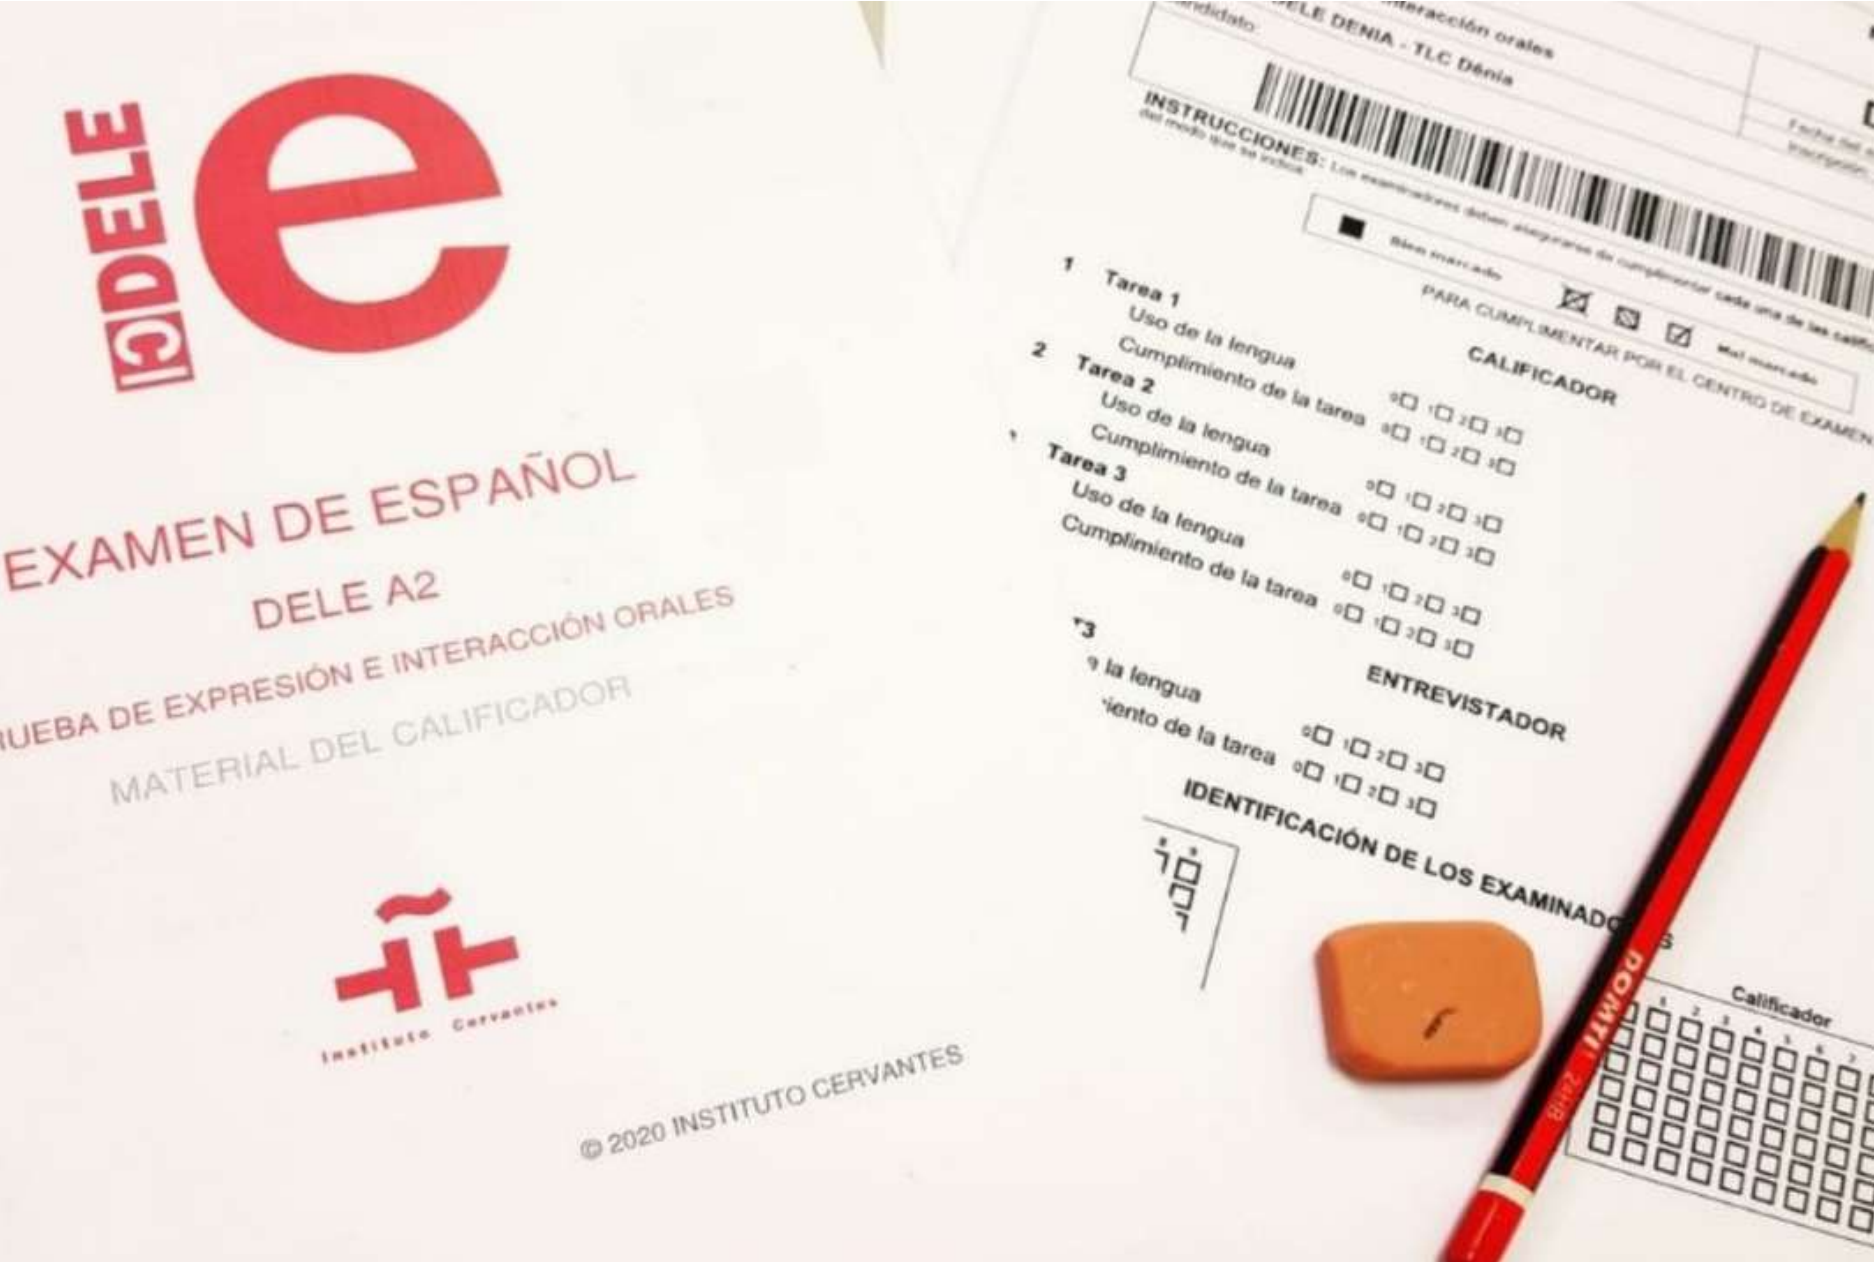

Horas de voluntariado: 1000

Luciano Poyato, presidente

Get graduated by CERVANTES INSTITUTE

Our non-spanish speaker students are receiving daily spanish classes to classes prepare the DELE exam.

DELE is a standardized exam where you are tested on your Spanish language proficiency. This examination tests your reading, writing, listening, and speaking capabilities to obtain your official Spanish qualification. Passing the official exam requires the approval of the teacher and an additional fee of 150€.

International Grade

Volunteering offers many benefits, not only the opportunity to develop professional skills and grow as a person, but also helps the local communities you support build a brighter tomorrow.

By earning a grade based on your volunteer experience, you'll earn internally recognized academic credit, something to show others (universities, future employers, and others) what you've accomplished through volunteering abroad.

Academic Credits

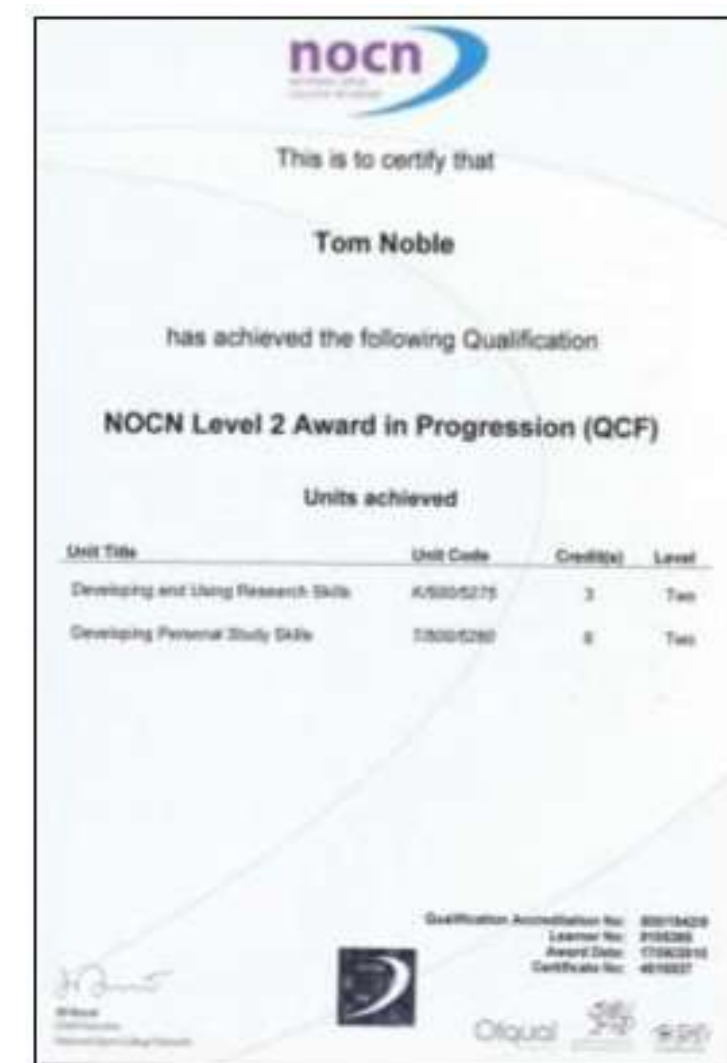

Our Diploma is worth 16 UCAS points or 41 credits in the UK university system. If you're going to university but taking a year off to travel and volunteer first, those extra UCAS points could make the difference between a good university offer and a great one. If you plan to study in the EU or the US, the good news is that these credits are recognized there to.

E-Learning

The Diploma can be completed at your own pace and its five modules are designed to be taken before, during and after your training. It can be completed in as little as two months, but many students take up to a year. Learning is based on inquiry, homework, and assignments, with online teacher support whenever you want. While abroad, all you really need is access to an internet connection to get support and upload your work.

Origin of the qualification

The CGCS team and the EnriquezArte School bring decades of leading experience in volunteering, online learning, and delivering major volunteer programs. Our Level 3 Diploma is accredited through the National Network of Open Universities, one of the best in the UK.
